Challenges & Opportunities in the AI Revolution of Retail & Logistics Supply Chains

Smart Business & Logistics Asia (SBLA) focuses on AI and sustainable development strategies integrating the logistics, retail and e-commerce industries, showcasing innovative solutions for the whole supply chain.

Industry Transformation

With rising consumer expectations for real-time delivery, omnichannel shopping, and personalized services, the retail and logistics supply chains are undergoing an unprecedented smart revolution. **One key trend in this transformation is Store-warehouse blurring**, where the boundaries between traditional retail stores and warehouses are disappearing, bringing both challenges and opportunities.

Challenges & Opportunities in the AI Revolution of Retail & Logistics Supply Chains

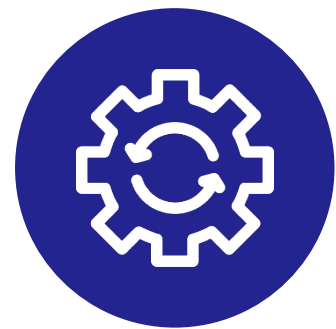

How can Taiwan leverage blockchain, AI, and the Internet of Things (IoT) while integrating the Physical Internet (PI) model to maximize logistics resource-sharing? How can we establish a greener, more sustainable, standardized, and smarter logistics network? Furthermore, Taiwan has a strong advantage in humanoid robotics and AI applications within the logistics supply chain.

Vision

We aim to increase the smart automation rate of warehouses and stores from 5% to 95%. Taiwan will not only be a key provider of AI and Physical Internet technologies but also play a crucial role in shaping the future of global retail & logistics supply chains and technological development.

Why Exhibit

Taiwan's only platform focusing on AI and Sustainability for the logistics, retail and E-commerce industries

Discovering innovative solutions for digital transformation

Exploring Taiwan's market and gaining business and cooperation opportunities

ESG sustainable development platform for the smart business and logistics industries

Staying ahead with the latest global smart commercial logistics industry trends

Exhibition Categories

Smart Transportation

- Intelligent Transportation Management System
- Electric Delivery Vehicles / Specialty Vehicles/Trucks
- Freight Forwarding Services / Logistics Services
- Conveyor Belt Equipment
- Green Transportation

Smart Cold Chain

- Smart Cold Chain Information System Solutions
- Energy-Efficient Refrigeration Equipment & Insulation Engineering
- Insulation Systems & Materials
- Cold Chain Warehousing & Green Packaging
- Cold Chain Logistics & Delivery Services
- Refrigerated Transport Vehicles & Cooling Equipment
- Energy-Saving Thermal Storage & Cooling Equipment
- Central Kitchen & Cutting Equipment
- Cold Chain Relative Services
- Green Design

Smart Warehousing

- Smart warehousing solutions
- AMR/AGV/Robot-arm
- Operations & Supply Chain Management Systems
- Last-Mile Delivery Solutions
- Green Warehouse Building Materials & Equipment
- Recyclable Packaging / Containers & Consumables
- Logistics Real Estate & Leasing Services
- Green Warehousing

Smart Commerce

- Retail ERP Systems
- E-Commerce
- Cross-Border E-Commerce
- ESG & Sustainable Development
- Digital Marketing/Retail Media
- Payment & Logistics Integration / POS Systems
- Sustainable Supply Chain & Logistics Management
- Innovative Services & Business Models
- Store Renovation & In-Store Marketing

International Logistics

- Air & Maritime Transportation Industry
- Intl. Logistics & Freight Forwarding (Air, Land & Sea)
- Supply Chain Service Integration
- International Airports / Ports / Free Trade Zones
- Green Air & Sea Transport
- Customs Brokerage Services

Industry-specific Logistics

- Fresh/Processed Food
- Semiconductors
- Floriculture
- Wind Farm Operation & Maintenance
- Pharmaceuticals
- Delivery Services

Related Services

- Human Resource Training Institutions
- Colleges & Universities
- Certification Organizations
- Media
- Industry Associations

Target Audience

Retail & E-commerce

- Wholesale and Retail Trade Industry
- Food Processing Industry
- Restaurants and Catering Services
- E-commerce

International Logistics Service User

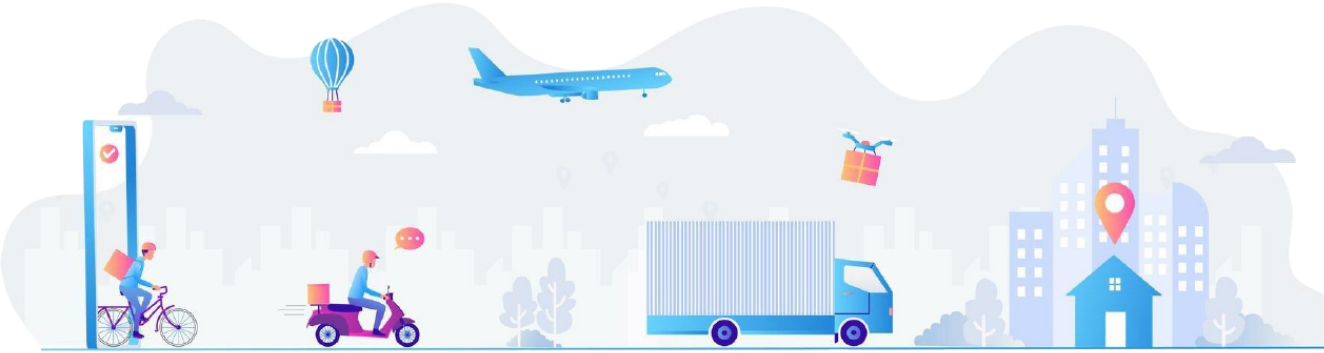

- Electronics, Semiconductors and High-Tech Industry
- Machinery and Electrical Related Manufacturing
- Import and Export Trade
- Information and Communication Technology (ICT)
- Motor Vehicle, Bicycle Components and Parts
- Biotechnology and Pharmaceutical / Cosmetics Industry
- Hardware Processing Industry

Logistics Supply Chain

- Integrated Logistics Service Industry
- Warehousing Service Industry
- Transportation Service Industry
- Internet of Things Related
- Packaging Industry

Program at a Glance

Asia-Pacific SMART Business Logistics & Supply Chain Forum

Challenges & Opportunities in the AI and Sustainable Revolution of Retail & Logistics Supply Chains

Track 1: The Smart Supply Chain Transformation in Retail & E-commerce

One key trend in this transformation is Store-Warehouse Blurring, where the boundaries between traditional retail stores and warehouses are disappearing, bringing both challenges and opportunities. How can Taiwan leverage blockchain, AI, and the Internet of Things (IoT) while integrating the Physical Internet (PI) model to maximize logistics resource-sharing? How can we establish a greener, more sustainable, standardized, and smarter logistics network? Furthermore, Taiwan has a strong advantage in humanoid robotics and AI applications within the logistics supply chain. Over the next decade, we aim to increase the smart automation rate of warehouses and stores from 5% to 95%.

Tentative Invited Speakers

FORUM

Asia-Pacific SMART Business Logistics & Supply Chain Forum

Track 2: Global Manufacturing, AI Transformation & Taiwan's Competitive Edge

As global supply chains undergo restructuring, how can Taiwan's manufacturing sector navigate challenges related to tariff policies, global market expansion, talent development, and AI transformation to establish a competitive advantage? More specifically, within the Physical AI (PAI) and Physical Internet (PI) revolutions, how should Taiwan position itself within the global industrial landscape?

Tentative Invited Speakers

Dr. Benoit Montreuil,
Director of the US
Physical Internet Center

Takayuki Mori,
Chairman of Japan PI Center

Asia-Pacific SMART Business Logistics & Supply Chain Forum

Track 3: Sustainability of International Logistics

Leading global logistics enterprises will share their successful experiences in green transformation. Through real-world case studies, businesses can gain insights into achieving sustainability goals while enhancing operational efficiency. Join us in driving the logistics industry toward a greener future.

Tentative Invited Speakers

Dr. Thomas Sim,
Senior Vice President, FIATA

Side Events

Solution Sharing Forum

Providing solutions for the digital and sustainable transformation of the logistics, retail, and e-commerce industries
Registration details can be found in the Forum Package

Business Matching

Arranging one-on-one meetings between exhibitors and domestic and international logistics, retail, and e-commerce industries to establish direct cooperation channels and business opportunities

Site Tour

On-site visits to Taiwan's advanced smart logistics parks, such as OMEGA 2 and Evergreen Dayuan Logistics Park to gain insights into Taiwan's latest technologies in smart warehousing

Exhibition Package

Booth Type	Equipment	Regular Pricing
Raw Space	No construction / no power socket / no carpet	USD 2,000 NTD 60,000
Shell Scheme Stand 3Mx3M (9sqm)	<ol style="list-style-type: none"> 1. Carpet (needle punch) x 9 sqm 2. Fascia board with company name 3. Partitions H=250cm 4. Long arm spotlight (18W) x 3 pcs 5. Power socket (max. 110V/5A) x 1 6. Chair x 2 7. Info. counter (system made, 100x50x82.5cm/h) x1 8. Waste basket x 1 	 USD 2,270 NTD 68,000

Note:

1. The above pricing is exclusive of 5% VAT.
2. 4 exhibitor badges will be provided for the first 9sqm exhibit space, 2 more badges for each additional 9sqm.

Forum Package

Item	Price (excl. VAT)	
	Gold	Silver
	USD 3,350 NTD 100,000	USD 2,000 NTD 60,000
Shell Scheme Stand (9sqm)	V	
Forum Presentation (15 mins)	V	V
Business Matching Participation	V	V

Note: Presentations other than 15 mins might also be welcome. Please contact the organizer to check appropriateness and for quote.
