A3. Move-in / Move-out Schedule

	Item	Date	Time
Move-in	Booth construction (Contractor check-in)	June 21	08:00-18:00
	Booth decoration (Exhibitor check-in)	June 22	08:00-18:00
	Exhibitor Badge Collection		10:00-18:00
	Transmission of booth electricity		11:00-18:00
	Exhibitor access	June 23-25	09:00
Move-out	Termination of booth electricity	June 23-24	17:00
		June 25	16:00
	Exhibits move-out	June 25	16:00-17:00
	Booth dismantling		17:00-23:00

A3-1. Booth decoration must be completed by 18:00 on June 22. Exhibitors are reminded to keep

exhibits and decorating materials secured. The organizer is NOT responsible for any losses.

- A3-2. All visitors must leave the hall on the last show day (June 25) before 16:00. Only exhibitors will be allowed to remove exhibits from the booths during the official move-out period as the above Move-in / Move-out Schedule. No vehicles will be allowed to enter the exhibition hall before 17:00. No contractor will be allowed to dismantle the booth construction before 17:00 on June 25. At the end of the show, it shall be the responsibility of the contractor to dismantle and remove the exhibition stand in accordance with the dismantling schedule.
- A3-3. Exhibitors and appointed contractors shall guarantee to comply with “Messe Taoyuan Rental Regulations” and “Messe Taoyuan Technical Procedure” when accessing the premises of the Center during the lease period. For details, please visit MT website <https://www.messetaoyuan.com.tw/zh-tw/organize-downloads>
- A3-4. **During the move-in and move-out periods, exhibitors and contractors are responsible for removing all booth construction waste, including foam board scraps, wood, graphics waste, and packaging materials, on a daily basis after work.**

A4. Exhibitor badges

- A4-1. Each exhibitor shall apply for exhibitor badges. Please complete the exhibitor badge application (Form 3) and submit it to the Organizer by May 12, 2026.
- A4-2. Exhibitors should proceed to the services counter on June 22 (10:00-18:00) for exhibitor badges by presenting business cards. All exhibitors and their staff are strictly requested to wear the exhibitor badges during move-in / move-out and throughout the show. The 4 exhibitor badges are granted for the first 3m*3m booths rented. 2 more badges for each additional booth. Extra badges can be arranged at the cost of NT\$200 each via application. Please contact the organizer if you have any questions about the application for exhibitor badges.
- A4-3. Exhibitors are reminded to deploy staff to man and open their booths on each show day. If valuable exhibits are displayed during the show, please keep them secured at all times. Exhibitors are advised to take all valuable items at the end of each show day.

A5. Electricity and drainage installations

- A5-1. Three types of electricity services are available in the exhibition hall, i.e. 110V / 220V / 380V.
- A5-2. The power outlet (110V, max. 500W) for the standard booth package is only for single electrical appliances, not for lighting. Any electricity layout change or exhibitors who require additional lighting or lighting connections for their own lighting equipment can order directly from the Official Contractor using Form 5 and Form 5-1 before May 12, 2026. A surcharge will be added to the order after the deadline. Raw space does not come with electricity supply. All raw space exhibitors should have their contractors order appropriate electricity supply from the Official Contractor no later than May 12, 2026.
- A5-3. The electrical services for all exhibitors should be carried out by Interplan International Corp., the Official Contractor. Exhibitors and their contractors are responsible to ensure all electrical fittings and wiring are well-installed in the booth and disposed properly at the end of the show. Exhibitors and their contractors are liable for any property damage or accidents caused. The Organizer and/or the Venue reserve the right to charge this entirely at the respective exhibitor / contractor's expense.
- A5-4. Additional equipment and electricity orders must be submitted by May 12, 2026 and payment must be made before move-in. Failing of which, the Official Contractor reserves the right to cancel the order with no obligation. Failing to do so, exhibitors will be required to pay such order at on-site prices and be subject to stock availability on-site, unless otherwise agreed in writing between the Exhibitor and the Official Contractor.
 - 30% surcharge will be added for all orders received on or after May 13, 2026.
 - 50% surcharge will be added for all orders received after June 3, 2026.

- A5-5. During move-in on June 21, there is only exhibition hall lighting for booth construction; the electricity will be delivered to all booths as from 11:00 am on June 22 and will be terminated at 6:00 pm. The booth electricity will be provided during the show from 9:00 am to 5:30 pm, June 23-25 and 9:00 am to 4:30 pm, June 25.
- A5-6. The air-conditioning is only available during the show period. Exhibitors are not allowed to install their own air-conditioning equipment inside or outside the booth. The Organizer has the right to terminate the power or remove parts of the installation should its construction fail to meet the requirements or acceptable standards of the Organizer and/or Venue Management. Any such on-site alteration costs will be entirely at the exhibitors' expense.
- A5-7. Exhibitors may install voltage regulators or uninterruptible power system (UPS) for special exhibits. Besides, they must order the proper electrical power supply from the Official Contractor so as not to cause danger to the general public.
- A5-8. Exhibitors who apply for 24-hour power supply will not be compensated if the official power supply is interrupted or if force majeure (natural disaster) causes sudden failure of the power equipment.
- A5-9. If the power requirement exceeds 220V/20A, an additional transformer box will be provided. The dimensions of the transformer box are L63 × W47 × H92 cm, as shown in the diagram below.

- A5-10. Exhibitors / non-official contractors are not allowed to remove the electricity equipment of exhibition hall or install any unsuitable electrical devices. The Organizer has the right to terminate the power or remove the electrical appliance / machine. Any such on-site alteration costs will be entirely at the exhibitors' expense.
- A5-11. Improper water disposal or disposal of water / waste-water directly in the booth or venue ground may cause accidents such as electrical short circuits and fires. Exhibitors and their contractors are responsible for ensuring that any water / waste-water used in the booth is disposed of properly at the end of the show.
- A5-12. To comply with the government's energy conservation and carbon reduction to stop global warming, exhibitors are recommended to use reusable system decoration, energy-saving lighting or other energy-saving lamps.

A6. Free Wi-Fi service

- A6-1. Hotspot Location: indoor exhibition area, conference hall, parking lot, and other spaces above.
- A6-2. This service is intended solely for the provision of basic E-mail sending/receiving and for webpage browsing by buyers and exhibitors. Besides, there are radio interference during the exhibition. If exhibitors need a stable internet connection, please apply for ADSL service from Chunghwa Telecom.
- A6-3. In response to the Personal Information Protection, users shall take care of their online activities. Any business loss or legal liability resulting from such misappropriation shall be borne by the user(s).
- A6-4. In order to prevent mutual interference, it is prohibited for exhibitors to set up Wi-Fi access point equipment.
- A6-5. Precautions for usage of this service
 - A6-5-1. This only allows buyers and exhibitors to send/receive emails and browse websites; Wi-Fi service will be limited to bottlenecks in telecommunication technology (multiple users will lead to disconnection), so please apply for ADSL if you need to use the network for long terms are upload/download large quantities of data.
 - A6-5-2. Please be sure to protect with extra care the safety and privacy of your company's (personal) information as you shall be responsible for any commercial loss or legal issue.

B 、 Rules and Regulations

All exhibitors and their contractors must comply with all the rules and regulations as stipulated in this Exhibitor Manual. Failing of which, the Organizer reserves the right to prohibit the exhibitor and contractor from accessing the booth and their participation fee will not be refunded under such circumstances.

B1. Exhibit / Exhibitor information

Exhibits must comply with the exhibition or will be stopped without the exhibit fee refunded. Exhibitors should use fascia or other methods to communicate company names or brand names and the booth number should be easily recognizable at an obvious place on the booth. In case that this information is not disclosed, inexplicit or inconsistent with registered information, exhibitor shall make amendments once notified by the organizer. Failing of which, the organizer reserves the right to prohibit the exhibitor from the show participation.

B2. Intellectual property rights

B2-1. It is strictly forbidden to display products that infringe intellectual property rights of other companies. In order to protect intellectual property rights, we strictly prohibit display of products infringing patent rights, trademark rights, copyright and trade secrets. Intentional violators confirmed by court will be removed from the exhibition immediately and all paid fees not refunded. In the case someone reports an intellectual property infringement or one of the following conditions, the organizer can request to remove the product display.

B2-2. Intellectual property infringement is determined by the first-instance judgement of court.

B2-3. Victim of copyright is determined by the Copyright Review and Mediation Committee.

B2-4. The infringing object can be sent to a specialized agency for identification, or the manufacturer / importer will be notified in advance or simultaneously to exclude violators. If the notification is not carried out but legal remedy procedure is followed in advance, or reasonable attentive obligation has been done to notify the subjects, or there is sufficient evidence proving that the parties notifiable know about the infringement issue, it shall be deemed that the exclusion notification procedure has been carried out. The exhibitor will be liable for all compensation if the Organizer becomes involved in any actions or suffers any damages.

B3. Dangerous articles

Explosive, flammable dangerous and prohibited items (any restricted products in Taiwan or according to international regulations) and counterfeits are prohibited from being brought into the exhibition. The Organizer reserves the right to remove them from the exhibition hall and Exhibitors should bear all costs and take responsibility.

B4. The order of the exhibition

During the show (including set-up and dismantle), if anyone creates a disturbance or protests at a booth or the exhibition areas due to the debt, personal vendetta or other personal disputes of an exhibitor, further affecting the order or image of the exhibition, and the exhibitor is unable to handle the matter effectively, the Organizer has the right to stop the exhibitor from displaying without refund; the exhibitor shall be liable for all compensation if the Organizer becomes involved in any lawsuits or suffers any damages.

B5. Cancellation of exhibition.

The Organizer reserves the right to cancel the Exhibition 60 days before the Exhibition starting date and shall in such event reimburse already paid fees to the exhibitor. The Organizer shall have no other liability to the exhibitor. Should the cancellation be due to force majeure, or ordered from a higher authority, then the Organizer will not be obliged to reimburse the Applicant.

B6. Change of exhibition date and location.

The Organizer reserves the right to suspend/postpone the Exhibition, change the date and/or venue for the Exhibition for any reason before the Exhibition starting date. The Applicant agrees to attend the revised Exhibition and all terms shall continue to apply. If the applicant cannot or does not want to attend the revised Exhibition, the Organizer will look how to potentially compensate the applicant but will not be under any obligation to do so and they shall have no other liability to the Applicant.

B7. Withdrawal from exhibition.

Paid deposits will not be refunded; fees paid by exhibitors who withdraw from the exhibition after their application is accepted will not be refunded.

B8. Booth transfer.

The exhibitor is not allowed to transfer their contracted space or participate in the exhibition using a different corporate name (including name of sponsors). In the case of any violation, Organizer may take back the transferred space and remove the exhibitor without refund.

B9. Safety and insurance

- B9-1. During the exhibition or event, exhibitors shall assign personnel in monitoring their own exhibits, materials, decorations and construction equipment. Exhibitors should also purchase insurance policies depending on their needs. If items are lost or damaged, organizer shall not be held responsible.
- B9-2. From move-in to move-out, exhibitors must take out insurance policies covering fire, theft, water damage and public liability (including supplemental insurance for natural disasters, such as typhoon, earthquake, flooding and rainstorm), in accordance with international exhibition practice. The Organizer will not be liable to compensate any exhibit or decorating material that is lost or damaged due to the afore-mentioned events.
- B9-3. During the exhibition (including decorating and dismantling periods), the exhibitor shall be liable for all indemnifications and legal responsibilities when personnel or third-party casualties or property loss are caused by the exhibitor's set up, operation, maintenance or improper management of facilities, objects and exhibits.
- B9-4. Exhibitors should pay attention to fire prevention and safety; in the case a fire breaks out due to problems in booth design, construction and improper use of appliances, the exhibitor will be fined NT\$100,000 and will be liable for all legal responsibilities and indemnifications.
- B9-5. Exhibitors should set up "Do Not Photograph" or "Do Not Videotape" signs in Chinese and English if they do not wish for visitors to take photos or film their products; however, for the sake of promotion, please cooperate with contracted press wearing press badges.
- B9-6. The decision of the Organizer in relation to any problem or dispute arising at or in connection with the show shall be final and binding upon all exhibitors.

B10. Booth decoration hours

Booth decoration and exhibit arrangement must be completed before 6:00PM on June 22. Exhibitors who require to stay after posted hours to work should apply for the consent of the Organizer before 4:30PM on that day, handle the process in accordance with the regulations for usage of MT, and pay the after-hours fee.

B11. Exhibits

Large exhibits can not to be moved-in or moved-out during exhibition. In the case any exhibitors need to add small items that can be hand-carried, they can be set-up during 9:00 am to 10:00 am. In the case an exhibitor wants to take small exhibits out of the exhibition hall during the show, a permit must be acquired from the on-site service counter. Or no exhibits can be taken out of the exhibition hall on the last day before 4:00PM. If an exhibitor commences move-out packing before 4:00PM on

the last day of the show ("Early Packing / Move-out"), the Organizer shall be entitled (in its sole and absolute discretion) to ban the Exhibitor from any or all future participation in the event.

B12. Contractor safety

During move-in/out period, exhibitor appointed contractors are required to wear contractor badges and MT contractors may use their contractor badges or work permit to enter the premises to work. All personnel must wear safety helmets (labeled with their company name).

B13. Prohibition

- B13-1. Grab cranes and fuel-type generator sets are prohibited in the exhibition hall.
- B13-2. Smoking is strictly prohibited at MT according to the Tobacco Hazards Prevention Act. The Department of Health, Taoyuan City Government will assign personnel to make inspections during the exhibition (including set-up and dismantle) and violating exhibitors will be issued a citation.
- B13-3. Dangerous items and use of naked flame are strictly prohibited in the hall.
- B13-4. Political activities are prohibited in the exhibition hall. It is NOT allowed to audio/visual broadcast political information nor distribute political leaflets. Failing of which, the organizer reserves the right to prohibit the exhibitor's activity and the exhibition fee will not be refunded. Exhibitors shall not occupy aisles nor public areas, and they could distribute promotional materials only within their booths, otherwise, the organizer may remove or confiscate the items immediately without being liable for safekeeping and return. The expenses derived from the item removal shall be borne by the exhibitor.

B14. Volume

All audio / visual equipment must be positioned and be kept at an appropriate level of volume (at or below 85 dBA) in order not to cause any interruption to other exhibitors or visitors. Exhibitors using wireless microphones during exhibition must inform in advance to the organizer to avoid interference.

B15. Contamination treatment

When smoke, exhaust, dust, malodor, irritant gas or volatile organic solvent are generated from exhibit operation, they shall be handled by the exhibitor for contamination treatment and not to affect surrounding booths and the exhibition, otherwise the Organizer may prohibit the on-site demonstration or stop the display immediately.

B16. Others

Exhibitors and the contractors must adhere to the above regulations, the Organizer reserves the right to terminate the booth power supply and prohibit the exhibitor / contractor from accessing the booth. For further details or anything unclear, please refer to the "Messe Taoyuan Rental Regulations". The Organizer reserves the right to amend the regulations if necessary.

C、Booth Construction and Decoration

C1. Standard booth

Exhibitors who order organizer-provided standard / shell scheme booths and require additional equipment, such as extra furniture or electricity, must rent from the official contractor. Exhibitors shall pay attention to the price, deadline, and payment terms as well as read through all regulations and clarify any questions with the contractor to avoid any dispute. The Organizer has appointed Interplan International Corp. as the Official Contractor of Smart Business & Logistics Asia 2026.

- **Interplan International Corp.**

Tel: +886 2 2758-5450

Mr. Matt Lee Ext. 611 Email: matt.lee@interplan.com.tw

C2. Raw space

Raw space exhibitors will be given a floor space without booth facilities, carpet nor power supply. Raw space exhibitors must design and construct their own booths, lay the carpet and adhere to the regulations as stipulated in this Exhibitor Manual, as well as any other rules stipulated by the Organizer before or during the show. Failing which, the Organizer reserves the right to prohibit the raw space exhibitor and the contractor from accessing the booth and their participation fee will not be refunded. Exhibitors, at their own expense, may contact either the official contractor (Interplan International Corp.) for custom-made booth services or commission other qualified decorators to handle matters associated with their booth construction.

C2-1. Custom-built booth on raw space

Raw space exhibitors may appoint any competent stand contractor for booth design and construction. Please ensure the contractor and their on-site workers possess valid Taiwan working visas / permits. The Organizer reserves rights to disapprove a contractor who disobeys the above requirement and its design submission. Booths of a raw space smaller than 36sqm can only be built by the official contractor.

C2-2. Custom-made stand contractors must submit the following documents by May 12.

- Safety and Health Commitment before Construction (Form 1)
- Booth Construction Assurance (Form 2)
- Copies of company license or business registration
- The booth design drawings including floorplan, elevation and electrical plan.

Any booth structure which is built not in accordance to the approved design may be requested to have on-site alterations made at the exhibitor's expense.

C2-3. Raw space exhibitors and their contractors are responsible to provide, set up and decorate their booth partitions facing their own booth areas, aisles, and adjacent booths. The constructed walls should not exceed the booth height / width limits and must be furnished and/or covered with fire-proof materials, or other materials approved by the organizer. No logos, pictures, words are allowed on the walls facing and adjacent to the neighbor stands. If the exhibitor / contractor fails to meet this regulation, the organizer reserves the right for rectification at the respective exhibitor / contractor's costs.

C3. Flameproof materials

Exhibitors should use materials with flame-proof labels in accordance with the regulations for booth decorating construction at MT; relevant materials, including carpets, curtains, screens, advertising boards and other appointed flameproof items, should be labeled with flame-proof marks after inspection by specialized units. During the time between decoration and end of exhibition, exhibitors must have on-site valid certified documents on flameproof materials for inspection by fire-fighting units. In the case any violation of laws and regulations should lead to MT being cited or responsible for any accidents derived, the violating exhibitor shall bear joint and individual liabilities (for

regulations and detailed description on flameproof materials, please refer to the “regulations on use of flameproof materials for booths in MT”).

C4. Installed and dismantled

Exhibitors and its appointed contractors shall ensure that the booth is installed and dismantled in a safe, systematic and organized manner, within the designated move-in / out time period. Exhibitors are responsible for confirming the booth decorations dismantling schedule with their appointed contractor. Contractors should strictly follow the move-in and move-out schedule and arrangement set by the Organizer.

C5. Height of booth construction

Booth construction with height from 4 to 6 meters is permitted only with the organizer approval. Exhibitors must take full responsibility for the safety of the structure. Booth structure over 4m height must carry an assurance issued by an Architectural Engineer and submitted to the organizer by Apr.30 (Form 12-1, and Form 12-2).

C6. Disposing of the materials

At the end of the show, it shall be the responsibility of the contractor to dismantle and remove the booth structure and booth decorations in accordance with the dismantling schedule. Any exhibit or stand materials left behind at the venue shall be deemed abandoned, and the exhibitor and the appointed contractor are liable for the expenses of disposing of the materials.

C7. Damage compensation

No paint spray or painting work are allowed at the venue. Any damage caused to the venue by the paint will be subject to a penalty at the exhibitor’s cost.

C8. Construction safety

In order to comply with demands of Labor Standards Inspection Office of Taoyuan City Government, the organizer will ask for penalties in case of any construction workers not wearing helmets or not wearing safety belts when operate at a height above 1.5 meters, not setting up command and control areas when perform lifting operation, and not placing safety cones under lifted objects and controlling personnel entry and exit.

C9. Others

For further venue regulations and information, please refer to the "Messe Taoyuan Rental Regulations". Anything that is not fully stipulated shall be subject to further amendments notified by the organizer.

D、Vehicle Management

- D1. During set-up and dismantle periods, sedans are not allowed in the hall, only trucks may enter and they should stay on stipulated routes; RVs should have show vehicle registration, and cars registered as private sedans may not enter. Temporary parking is forbidden on the 3-meter path; please park vehicles on the 6.1-meter path or on the road outside of the exhibition hall for unloading, and then use trolleys to move the cargo to the designated area (Exhibitors should bring their own trolleys). Please follow the stipulated speed limit (10 kph); any destruction to the equipment or facility of MT, whether intentionally or not, the person responsible must pay all expenses; engines must be turned off immediately once the vehicle is in position.
- D2. One vehicle per exhibitor at a time. The Venue Management will register the time of vehicle entry, license number, booth of owner and person in charge. A deposit of NT\$1,000 should be paid at the entrance. If the vehicle leaves within 1 hour, the deposit will be returned. Otherwise, a fee of NT\$200 per hour will be collected, starting from the time of entrance.
- D3. Leave time of in-hall vehicles. In-hall vehicles must leave the exhibition hall before 12:00 on the move-in day (June 22).
- D4. The entrance height of trucks in South Exhibition Hall is 6 meters. The maximum height of trucks in the exhibition area is 6 meters. The “Application for Entrance of Heavy Vehicles in MT” (Form 8) applies to trucks taller than 4 meters (including 4.25 meters high super-high container trucks) and/or the vehicles weighting more than 25 tons (according to specifications on vehicle or registration) or hoists (cranes), forklifts and crane trucks of any weight. The “Certificate of container weighing within 24 hours” must be provided when entering the premises and vehicles may enter during permitted time periods upon approval.
- D5. Exhibitors should control the vehicles to enhance and maintain safety, order and air quality. Trucks transporting decorating items must enter in accordance with the time and sequence set by the Organizer; security may prohibit violating vehicles from entering according to the circumstances.
- D6. ***All Exhibitors**

Form 1: Exhibitor Commitment Form – Construction Safety and Health

As we will be participating the Smart Business & Logistics Asia 2026 held at MT, we understand the safety and health facilities and requirements of the construction site; our company and appointed contractors will comply with governmental rules on labor safety and health, as well as other laws and regulations; subcontractors will be informed of the labor safety matters and other relevant laws and regulations. In the case any occupational hazard or other accidents occurred due to negligence during the construction or event, our company and appointed contractors will be liable for all legal compensation. Our company and appointed contractors shall not damage any of the venue equipment or implements; we will pay the full price or make repairs at our own cost for any damages.

Our company and appointed contractors will adhere to the following regulations below:

1. Regulations Governing Exhibitor Pre-Construction Standards at MT
2. Guideline for Construction Safety and Health Management at MT
3. Notification of On-site Hazardous Factors at MT

Our company and appointed contractors have visited the official website of “MT” (<https://www.messetaoyuan.com.tw/zh-tw>) and fully understand the laws and regulations related to occupational safety and health; we are willing to accept penalties for any violations during operation.

To: Intercon Convention Management Co., Ltd.

Exhibitor: _____ (block letters and seal)

Responsible Person: _____ (block letters and seal)

Tax ID No.: _____ Booth No.: _____

Form 9
Deadline:
May 12, 2026

Form 9: 【Regulations for Sound System Installation】

1. The stage edge must be set back from 2m of the booth boundary. Speakers are limited to 2 speakers per exhibitor and positioned to direct the sound into their own booth at a depression angle. Sound volume must be kept under 85 decibels (volume will be fixed by Organizer before the exhibition); neighboring exhibitors are prohibited to hold stage activities or play sound at the same time (must comply with the schedule arranged by Organizer; the interval between performances should be over one-hour and each performance should not be longer than 15-20 minutes).
2. Organizer will have hall patrol to ensure the volume control during the show periods.
3. Exhibitor should pay a deposit of NT\$50,000; Organizer may handle violations by taking the following actions:
 - 3.1 First time violator: when the volume measured on site is over 85 decibels, a written warning will be given.
 - 3.2 Second time violator: when the volume measured on site is over 85 decibels, a written warning will be given and the deposit will be forfeited.
 - 3.3 Third time violator: when the volume measured on site is over 85 decibels, a written warning will be given and the electrical power will be cutoff immediately.
4. Volume measuring: The decibel meter is held at 1.2-1.5 meters from the ground or floor, close to the height of human ear; measurement is taken at distance of 3 meters from the sound source.

REMARKS:

1. Please fill out this form and send it by registered mail, along with a sight check of NT\$50,000, to "Intercon Convention Management Co., Ltd.", before May 12.
2. Exhibitors who do not apply, must fill out this application/assurance form, and pay the deposit of NT\$50,000 as well as a fine for usage violation. Organizer has the right to remove the booth or refuse power supply before the application process is completed.
3. Besides complying with regulations, the reapplying exhibitor has to pay a fine for usage violation. Exhibitors who exceed the time limit and files the application during set-up (June 21-22), shall pay a fine of NT\$10,000 for usage violation. Exhibitors who file the application during the exhibition period (June 23-25), shall pay a fine of NT\$30,000 for usage violation.
4. If exhibitor does not violate the above regulations, the deposit will be refunded after the exhibition without interest.
5. Exhibitors using their own wireless microphones are to report and apply for microphone frequencies, and the equipment may be installed for use upon approval, but all matters should be handled in accordance with the regulations on installation of sound system. Unauthorized installation and usage causing interference to or influence on other conventional events at the Center will be seized from using relevant equipment, and the violation will be handled in accordance with Item 3 of the above regulations.

Please fill out this form and send it by registered mail, along with a sight check of NT\$50,000 , to Intercon Convention Management Co., Ltd. Mr. Ivan Tung ivan.tung@intercon.com.tw T: +886 2 2723-2213 #213 F: +886 2 2729-0720	Form 9-1 Deadline: May 12, 2026

Form 10: Application/Assurance for Promotional Balloons Installation

Our company will be participating in Smart Business & Logistics Asia 2026. For promotion purpose, we wish to apply for the usage of the following balloons (exclude hanging banners):

- Large balloons for advertising (each exhibitor is limited to one balloon smaller than 1.5m in diameter, only helium can be used to fill balloons, the height of the balloon top must not exceed 5m from the ground, and a deposit of NT\$50,000 has to be paid)
- Large balloons for advertising (each exhibitor is limited to one balloon smaller than 1.5m in diameter, only helium can be used to fill balloons, the height of the balloon to be higher than 5m from the ground and not exceed 7m, a usage fee of NT\$10,000 and a deposit of NT\$50,000 has to be paid)
- Small balloons for decoration cannot be raised over 4m from the ground (only helium or nonflammable gas can be used, and a deposit of NT\$50,000 is required)

We promise the balloons will be fixed within our booth without exceeding the height limit (REMARK 1). If a balloon floats up to the roof or if lines are hung on ceiling ducts, we will be responsible for cleaning them before the end of exhibition, otherwise you may deduct from the deposit a penalty and all expenses incurred; when the deposit is insufficient, we will be liable for repayment. In the case promotional balloons give rise to any property loss, personnel casualty or other infringement event, we will bear all legal responsibilities and protect you against any civil, criminal and indemnification liabilities, otherwise we will compensate you for legal fees, attorney’s fees, other expenses and damages.

Form 11: Application for Video Wall Installation

Our company will be participating in Smart Business & Logistics Asia 2026. For promotion purpose, we wish to apply for the installation of a video wall. Our company will comply with the provisions related to video wall installation; in the case of any violation, we will accept the punishment according to rules. General provisions for installation of video wall:

1. The height of the video wall cannot exceed 2.5 meters, and its front side must be at least 1 meter from the edge of aisles (close to booth) or form an angle above 30 degrees with the aisle edge.
2. A video wall that is 2.5 meters high cannot exceed 4 meters, and its front side must be at least 2 meters from the edge of aisles or form an angle over 30 degrees with aisle edge.
3. Volume of video wall cannot exceed 85 decibels.
- 4. The design drawing of video wall must be submitted to Intercon for review three weeks before set-up, and construction may commence upon approval.**
5. Videos played must fit the theme of the exhibition and not in violation of public order and good customs.
6. Electrical power will be cutoff when it is confirmed the exhibitor, who installed the video wall, has violated the above regulations.
7. Electrical power will not be supplied for unauthorized installation of video wall.

Form 12: 【Regulations for Ultra-high Structures】

1. As exhibitors require building ultra-high structures, MT has established this Notice for the maintenance for public safety and overall landscape.
2. If each booth is 3m × 3m, only exhibitors renting at least 4 booths to form a peninsula configuration (i.e., three sides face the aisle) may apply for ultra-high structure.
3. Exhibitors applying for construction of ultra-high structure are to prepare the following documents before May 12 and send them by registered mail to the Organizer:
 - 3.1. Application Form/Exhibitor's Assurance. (Form 12-1)
 - 3.2. Architectural Engineer's Assurance. (Form 12-2)
 - 3.3. Design drawings, structure diagram and structural computation statement certified by qualified practicing architect or civil and structural engineer; the design drawing must include floor plan, front elevation and side elevation.
 - 3.4. Copies of license of architect or civil and structural engineer, certificate of authorization to practice, and union membership document from that year; one copy each.
 - 3.5. One copy of the policy for casualty insurance and third-party liability insurance with a coverage of NT\$2,000,000 per person and per accident; the period of insurance begins at 00:00 on the first day of move-in and ends at 24:30 on the last day of dismantle.
4. Exhibitor should apply for construction of ultra-high structure before deadline and pay a usage fee upon approval. Usage fee of ultra-high structure is calculated according to the top view projection area on the design drawing; NT\$100,000 (tax included) is charged per unit (18sqm); if the area exceeds 18sqm, the number of units is calculated by dividing the top view projection area by 18sqm, and result multiplied by NT\$100,000 is the fee. If the construction area is smaller than 18sqm, NT\$100,000 will be charged. The wall length of booths facing aisles must be shorter than the length of booth front by 50%, the length of continuously confined walls is limited to 9 meters.
5. Each ultra-high structure cannot be higher than 6 meters, and the periphery must be set back from 1 meter of the booth boundary. Besides, exhibitors and their contractors are responsible to provide, set up and decorate ultra-high structure facing their own booth areas, aisles, and adjacent booths. If the exhibitor / contractor fails to accomplish this requirement, the Organizer reserves the right to rectify this at the respective exhibitor / contractor's costs.
6. Booth construction cannot destroy any facilities, use nails on the floors, pillars or walls, hang any objects from the ceiling, or seal fire prevention facilities and water/electricity pipelines; any violations may be removed by Intercon immediately.
7. If exhibitor change the design or violate these regulations after acquiring written consent from the Organizer who reserves the right to cut off its electrical power and close its booth. Unauthorized construction of ultra-high structure will be removed immediately, or Organizer may agree for exhibitor to reapply.
8. If anything is unclear in these regulations, please refer to the "Messe Taoyuan Rental Regulations". Anything that is not fully stipulated shall be subject to further amendments to be published by the Organizer.

Please fill this form and form 12-2, send it to the Organizer:

Form 12-1
Deadline:
May 12, 2026

Form 12-1: Application for Ultra-high Structures

Our company will be participating in Smart Business & Logistics Asia 2026. For promotion purpose, we wish to apply for the construction of ultra-high structure. We will comply with the regulations stipulated in the “Precautions for Exhibition Operations in MT”.

We promise to conduct the construction according to the design drawing certified by qualified practicing architect (or civil and structural engineer), to comply with the “General Provisions for Decoration in MT”, and to bear all legal liabilities for booth safety.

In the case any property loss, personnel casualty or other infringement event occur due to booth design, construction, use or improper dismantle, our company will bear all legal responsibilities and protect you from any civil or criminal prosecution incurred; otherwise, we will be liable for compensating your loss and damage, including legal fees and lawyer’s fees.
